

Finvoice and TEAPPSXML 3.0 EN16931 December 2023 update

All changes in this release are mandatory from Monday, 4th December 2023

[In short](#)

[Finvoice 3.0 changes](#)

[TEAPPSXML 3.0 changes](#)

In short

- No major changes

Finvoice 3.0 changes

Changes in existing rules:

in acme:decimal function change xs:decimal(number(...)) to xs:decimal(...)

- Fixed decimal handling, so now should work with both five decimal places and millions.

TEAPPSXML 3.0 changes

Changes in existing rules:

in acme:decimal function change xs:decimal(number(...)) to xs:decimal(...)

- Fixed decimal handling, so now should work with both five decimal places and millions

SCHEMATRON-24/BR-54 phase-in to fatal

- Rule severity changed from phase-in to fatal

**SCHEMATRON-24/BR-54 each item attribute
(ARTICLE_DESCRIPTION) must contain both name
(DESCRIPTION_TYPE) and value (DESCRIPTION_VALUE)**

- When ARTICLE_DESCRIPTION is used, DESCRIPTION_TYPE and DESCRIPTION_VALUE nodes must also be provided
- To ensure compatibility with EN16931, it is recommended to provide values in both mentioned nodes
